

CONTENTS: BOOKS BEING EXCESSED. \$846. #80550153090058.

Standard Handbook for Mechanical Engineers. 1978. C.10.  
Proceedings of the Symposium on Tornadoes. 1976. C.1.  
Handbook of Geophysics and the Space Environment. 1985. C.1.  
Temperature, its Measurement and Control in Science and Industry. V.1. 1941. C.1.  
Nuclear Structure and Electromagnetic Interactions. 1964. C.1.  
Theory and Design of Pressure Vessels. 1985. C.2.  
Mechanical Engineering Design. 1983. C.4.  
Oxide Ceramics.  
Chemical Engineering Series. 1954.  
An Elastic Relaxation in Crystalline Solids.  
Mechanics of Solids.  
Programming perl. 1990. C.6.  
Chemistry and Physics of Carbon. V.2 C.2 AND V.5. C.2.  
Point Defects in Metals. C.1.  
Argon, Helium, and the Rare Gases. 1961 V.1. C.3.  
The Physics of Engineering Solids. C.3.  
Refractory Materials. V.5-1. 1970.  
Refractory Materials. V.5-IV.  
Understanding Reliability. 1962. C.2.  
Damage Tolerance in Aircraft Structures.  
Elasticity and Anelasticity of Metals. 1965. C.3.  
Optoelectronic Techniques for Microwave and Millimeter-Wave Engineering.  
Word Division.  
Symposium on Properties of Surfaces. 1963. C.2.  
Elastic-Plastic Fracture Mechanics Technology. 1985. C.2.  
Elastic-Plastic Fracture Test Methods. 1985. C.2.  
Probabilistic Fracture Mechanics and Fatigue Methods. 1981. C.3.  
Fracture Mechanics of Composites. 1975. C.4.  
Handbook of Batteries and Fuel Cells. 1984. C.4.  
Power Systems Analysis. 1986. C.2.  
Dictionary of Technical Terms for Aerospace Use.
